What sort of man should be be? No in triguing, wire-working, broken-down old back. No would-be reviver of the wraths and enmities of the past dark and bloody years. No ancient groveler in the ashes and cinders of by-gone strifes and hates. No man who is not fully and heartily in accord with the grand liberalizing tendencies of the age.

He should be one thoroughly familiar with all the needs and interests of the district. One wide-wake to all the great material enterprises, railroads, bridges, goverament buildings, and all such things, in which his district has, or may have, any concern. He should be, if possible, a new man, who could start in a new congress, under a new and liberal regime, with no togs and cobwebs of old prejudices hang ing around him. He should be a gentle-man, a scholar, a man of brain, culture.

Such a man is our candidate, Th.res Davis. Against him, personally or political ically, we defy any one to produce one valid objection. # THE HEAD DONKEY.

Don Piatt, in last Saturday's Capital, thus acknowledges the brilliant success of the Blasted-Donke y show which was to have annihilated Greeley and elected grant:

Blanton Duncan of Louisville has achieved a great success. We may say that it is a magnificent success He has not got control of the Democratic party-he has not succeeded in distracting any part of the Democratic organization. He has not even found a candidate at this writing. But he has put the name of Blanton Duncan in the mouth of every man, woman and child in the United States. It is of small odds to Blanton whether there is a bad taste in the mouth or not. Blanton is gratified. He is notorious. A correspondent describes him with a leg propped on a chair-disordered, you see, at both ends-surrounded by people and covered deep with letters, like a babe of the woods. And all this has been done at some body else's expense. That's the comfort of it. That's the fun of it It don't cost Blanton a cent. Harlan got up his circulars and the Grant committee franked them for general circulation; his delegates were provided with passes, and Senator Morton, "the Devil-on - two -Sticks," was over the river with funds to pay hotel bills. Duncan, like the call in the side-show, possessed of two heads, six legs, and an assortment of tails, was great and astoundding without effort on his part, Since Malvolio no such fame has been thrust upon a man.
